INDUSTRIAL PHARMACY RESIDENCY PROGRAM

Specialty in Compliance

Sanofi Pasteur, the vaccine division of Sanofi Canada, is the largest company in the world devoted entirely to human vaccines. Sanofi Pasteur Limited, located in Toronto, is one of the company’s five major R&D and manufacturing sites. We are home to Sanofi Pasteur’s North American centre for Analytical and Bioprocess R&D. As well, we are the largest Canadian vaccine producer: each year, we manufacture approximately 50 million doses of vaccine for 20 out of the 26 vaccine preventable diseases and distribute them to more than 90 countries around the world. This variety of activities offers employees diverse opportunities for personal and professional growth. Our company attracts some of the best minds in the business from across the globe. Our 1,400 employees give us their best and we offer the best in return.

Department Description:

“It takes 20 years to build a reputation and 5 minutes to ruin it. If you think about that, you will do things differently.”

- Warren Buffett

As you may know by now the Pharmaceutical Industry does not always have the best reputation – in fact, more often than not it has a rather troublesome reputation. The Compliance Department of Sanofi plays an important role in raising awareness of compliance within Sanofi and to help build and keep the trust between Sanofi and the rest of the world. Compliance goes beyond following laws and rules; it refers to the ethical judgments in our decision making. As a key interface between Sanofi and company stakeholders, patients, employees, customers, shareholders, suppliers and members of the society in which Sanofi operates, Compliance is responsible for ensuring that Sanofi is acting with integrity and honesty at all times which helps to give us the optimum standards of care. We provide ethical opinions and decisions on what an appropriate course of action is for Sanofi Canada and what is not all while asking ourselves are we doing the right thing, at the right time, and for the right reason.

Responsibilities:

Reporting to the Head of Compliance Canada, the Compliance Pharmacy Resident will become an active member of the Canadian Compliance team, assisting all types of employees within Sanofi Canada navigate through ethical dilemmas that they may come across. This position develops the Resident’s understanding of the importance of compliance and what the repercussions are if Sanofi does not uphold ethical standards. Particular focus will be on learning how to navigate the corporate world and communicating with different members of Sanofi Canada, development and execution of Standard Operation Policies, and an understanding of the importance of Compliance throughout Canada.

Responsibilities of this position include:

1. Assist Compliance in the development and execution of local and global Standard Operating Procedures (SOP)
   a. Support Medical, Policy, and Marketing initiatives in creating new SOPs;
   b. Assist with raising awareness of new SOPs and educating the appropriate Commercial Operation members;
   c. Support the development of presentations and other materials to ensure compliance to the new SOP.

2. Support Compliance operations in Medical Affairs and Commercial Operations
   a. Support the Scientific and Medical Affairs members in the development, updates and implementation of compliance processes;
   b. Support Compliance workflow processes including external experts engagement, donations and other financial contributions, and organization of and contribution to events;
c. Assist in audit and inspection readiness activities including policy and procedure updates and monitoring of key processes.

3. Administrative support for Compliance
   a. Assisting in reviewing Sanofi Canada employee conflict of interest declaration;
   b. Data collection of uptake of core Sanofi ethics modules;
   c. Review grant requests from the different business units within Sanofi Canada for ethical dilemmas.
