INDUSTRIAL PHARMACY RESIDENCY PROGRAM
Specialty in Immunization Policy

Sanofi Pasteur, the vaccine division of Sanofi Canada, is the largest company in the world devoted entirely to human vaccines. Sanofi Pasteur Limited, located in Toronto, is one of the company's five major R&D and manufacturing sites. We are home to Sanofi Pasteur’s North American centre for Analytical and Bioprocess R&D. As well, we are the largest Canadian vaccine producer: each year, we manufacture approximately 50 million doses of vaccine for 20 out of the 26 vaccine preventable diseases and distribute them to more than 90 countries around the world. This variety of activities offers employees diverse opportunities for personal and professional growth. Our company attracts some of the best minds in the business from across the globe. Our 1,400 employees give us their best and we offer the best in return.

Department Description:

The Immunization Policy department of Sanofi Pasteur plays an important role in advancing the public health value of current and future vaccines in Canada. As a key interface between the Sanofi Pasteur and the public sector, the Immunization Policy team is responsible for evaluating and advocating for public health policy in Canada to achieve business objectives. This includes, but is not limited to, educating key public health officials, scientific opinion leaders, stakeholder organizations, elected officials and their staff with respect to policy and issues which affect Sanofi Pasteur specifically and the vaccine industry in general. We provide insights regarding public health needs to the internal company stakeholders to assist in the development of strategies to enhance the value of existing products and to facilitate the innovative development and delivery of future products.

Responsibilities:

Reporting to the Head of Immunization Policy, the Immunization Policy Pharmacy Resident will assist Immunization Policy and Commercial Operations to improve efficiency and productivity. The incumbent will develop an understanding of immunization policy in Canada, with particular focus on gaining knowledge of external systems and stakeholders, support Commercial Operations activities, and develop presentation skills and industry contacts.

Responsibilities of this position include:

1. Assist Immunization Policy in the development and execution of local policy initiatives
   a. Perform policy research to provide strategic public health policy resource to cross-functional teams;
   b. Develop and update stakeholder maps (e.g., patient associations, federal and provincial governments, public health sectors);
   c. Build and maintain positive relations with external stakeholders to leverage support for the company’s issues and products under the supervision of Director of Immunization Policy.

2. Administrative support for Immunization Policy
   a. Prepare briefing notes and materials for the political meetings;
   b. Develop speaking programs and slides for external and internal audiences;
   c. Organize departmental and cross-functional meetings as required (e.g., calendar invitations, organizing agendas, meeting minutes, etc.)
