INDUSTRIAL PHARMACY RESIDENCY PROGRAM
Specialty in Marketing

Sanofi Pasteur, the vaccine division of Sanofi Canada, is the largest company in the world devoted entirely to human vaccines. Sanofi Pasteur Limited, located in Toronto, is one of the company's five major R&D and manufacturing sites. We are home to Sanofi Pasteur's North American centre for Analytical and Bioprocess R&D. As well, we are the largest Canadian vaccine producer: each year, we manufacture approximately 50 million doses of vaccine for 20 out of the 26 vaccine preventable diseases and distribute them to more than 90 countries around the world. This variety of activities offers employees diverse opportunities for personal and professional growth. Our company attracts some of the best minds in the business from across the globe. Our 1,400 employees give us their best and we offer the best in return.

Description:

Reporting to the Director of Product Marketing, the Marketing Pharmacy Resident will become an active member of the Canadian Marketing team, supporting Commercial Operations' various initiatives including forecasting, supply management, trend analysis, market research, pricing, and the development of promotional materials.

Responsibilities:

- Providing input to marketing initiatives
- Assisting with project management
- Preparing documents and promotional packages
- Supporting various brands within the marketing department
- Analysis of results and data collection related to sales, customer data, market share, etc.
- Gathering external information and reviewing market research data
- Assist with updating various product plans

Basic qualifications:

- Must be a graduate pharmacist or a student in the final year of a program leading to a recognized university degree in Pharmacy (e.g. PharmD, BScPhm). In the latter category, a successful applicant must complete all Pharmacy degree requirements before starting the residency.
- Applicants from an approved university with a recognized university degree in Pharmacy must have graduated within five years of the last date for application.
- Minimum GPA of 3.0 on a 4.0 scale or 8.0 on a 12.0 scale
- Proficient in use of MS Office 2010, including Excel, Outlook, PowerPoint, and Word

Preferred qualifications:

- Able to work independently and in collaboration with others
- Strong organizational skills, attention to detail, and analytical skills
- Strong written, verbal, and interpersonal communication skills
- Desire to work within a team environment
- Strong project management skills including organization, time management, and follow-up
- Strong knowledge in basic and medical sciences
